LUXURIOUS TEXTURES

Pair TAG Hardware's metallic finishes with the softness of faux leather or woven fabric.

By combining these unique materials in a variety of colors you can create designs that maintain an overall palette of coordination while adding beauty, elegance and texture.

Leather adds a luxurious texture and warm tone to any room or application. Its sleek and timelessly stylish look provides an extra touch of elegance that perfectly complements many design styles. With leather, you can fully customize a closet or room to meet both functional and aesthetic needs.

Whether you're looking for a modern or classic feel, woven fabric is an excellent choice for providing an extra touch of style. Woven fabric accents add a subtle texture, warmth, and softness to closet organization.

COORDINATED FINISHES

Create unity and accents in your designs with TAG Hardware's coordinated hardware tones.

The color finish of our metal products is achieved using finishing processes and materials that provide us the high standards and quality we know designers expect. Our products are designed and manufactured with two different types of metal: aluminum and zinc.

Finishes like black or polished chrome are quite consistent between the two metals – they are solo artists. Others are deliberately two-toned, like matte aluminum paired with chrome accents or matte gold with a pop of bright gold. They have differences between the metals that work together in harmony. That complementary pairing can be seen in some of our products such as pull-out racks and shoe fences.

The subtle contrast between the bright accents and the matte finish gives variety to the appearance of the accessories and, when combined with the textures of TAG's fabric or leather products, creates stunning depth to the overall closet design.

MATTE GOLD

The statement that our Matte Gold finish makes is both bold and refined. This luxurious tone is available across a wide range of TAG Hardware products allowing for a fully coordinated design throughout the closet, room, and home. Pair it with Beach fabric from our Engage products for a warm, monochromatic feel.

All Symphony heights are available in four widths: 13.5" | 23" | 35" | 47"
